HOSE

TOPIC/EQUIPMENT: PICK UP AND DRAIN HOSE – HORSESHOE SHOULDER

CARRY METHOD

CATEGORY: Performance Exam

POINTS POSSIBLE: 100

TIME ALLOWED: Sixty seconds

BEHAVIORAL OBJECTIVE:

Condition: Given one length of hose

Behavior: The student will drain, pick up, and carry hose using the

horseshoe shoulder carry method under simulated fire

conditions.

Standard: With a minimum of 80% accuracy within sixty seconds.

MATERIALS NEEDED: • One (1) section of hose per student

• One (1) score sheet per student

• One (1) clipboard

Stop watch

Red pens

PROCEDURES:

SCORING: Points will deducted for each step omitted, performed

improperly, or performed out of sequence. Steps designated by Pass/No Pass must be performed properly or the student fails the entire examination. If the student goes over the

allotted time he/she will fail the entire examination.

SPECIAL NOTES:

DATE	E/	
STUI	DENT'S NAME	
EVAl	_UATOR'S NAME	
STE	PS AND PROCEDURES	
TIME 1.	E STARTS Lay hose flat on ground, in a straight line, fully extended with one coupling elevated to drain hose.	POINTS
2.	Take position at elevated coupling, facing the other coupling.	10
3.	Lift elevated coupling and carry it toward the other coupling.	5
4.	Place coupling on the ground even with the other coupling and approximately 12" away from the other coupling.	5
5.	Return to the opposite end of the hose and lift the hose at the fold.	10
6.	Carry the fold up the middle of the legs of hose currently on the ground to a point even with the couplings.	10
7.	Place the fold on the ground even with and between the couplings forming 4 flakes of hose.	10
8.	Return to center of hose flakes and stand each flake on edge. Gathering the flakes together to eliminate gaps.	10
9.	Place one foot at center of hose flakes as an anchor and bend both the folded end and the coupling end around the anchor foot forming a "V". The folded end and the coupling end should be 24" apart.	10
10.	Bend down and pick up hose at the base of the "V" lifting the hose onto the shoulder with the couplings to the front of the body and against the body (i.e. on bottom layer). Lift with the legs, not the back!!	20
